

Home Screen Essentials

- iPhone: Displays app icons, dock, search bar, and status bar.
- Android: Shows app icons with access to functions & apps.

Status Bar (Top of Screen)

- iPhone: Shows Battery Level, Signal Strength, Wi-Fi, Time & Notifications.
- Android also includes Bluetooth status.

App Dock (Bottom of Screen)

- iPhone & Android: Customize for frequently used apps!
- iPhone holds 4 apps, Android 5 apps—always visible while scrolling.

Control Center / Notification Panel

Access important functions quickly!

- iPhone: Swipe down from top right.
- Android: Swipe down from top middle (may need two swipes).

✨ Includes: Airplane Mode, Brightness, Volume, Wi-Fi, Flashlight & more!

Changing Wallpaper

Personalize your screen!

- iPhone: Select photo → Use as Wallpaper → Set as Wallpaper Pair.
- Android: Select photo → More options (top right) → Set as Wallpaper.

Auto-Lock / Screen Timeout

Controls when phone goes to sleep due to inactivity.

- iPhone: Settings → Display & Brightness → Auto-Lock → Choose time.
- Android: Settings → Display → Screen timeout → Select time interval.

Quickly Open Camera (Without Password)

Capture moments in an instant!

- iPhone: Long press  icon (bottom right) on the locked home screen OR swipe right to left.
- Android: Press & swipe  icon diagonally up & left.
