

## Recovering Deleted Photos

### • iPhone

- Open Photos app → Scroll down to Utilities → Tap Recently Deleted 
- Select photos & tap Restore 

### • Android

- Open Google Photos → Scroll down to Library/Trash 
- Hold down the photo/video you want → Tap Restore to bring it back! 

## Making Text Bigger

### • iPhone

- Go to Settings → Accessibility → Display & Text Size 
- Select Larger Text → Turn ON Larger Accessibility Sizes
- Use slider to adjust size & enable Bold Text 

### • Android

- Go to Settings → Accessibility → Display 
- Tap Font size & screen zoom → Adjust slider to preferred size.

## Enabling Flash Notifications for Calls & Texts

### • iPhone

- Go to Settings → Accessibility → Hearing 
- Tap LED Flash for Alerts  (Works when in silent mode )

### • Android

- Go to Settings → Accessibility → Hearing 
- Tap Flash Notification → Choose Camera Light or Screen Flash 

## Closing Apps vs Tabs – What's the Difference?

- Closing an App: Shuts down background apps & frees memory, but doesn't delete data inside the app.
- Closing Browser Tabs: Removes individual webpages but keeps the browser open.

## Managing Incoming Calls While on Another Call

### • iPhone

- End & Accept – Hang up current call to answer new one.
- Hold & Accept – Put current call on hold & answer new one. Tap Swap to return to original call.
- Decline – Sends call to voicemail. 
- Press Right-Side Button – Quickly rejects the call.
- Remind Me – Sends call to voicemail with a reminder option.
- Message – Send a pre-set or custom text response.

### • Android

- End & Accept – Hang up current call to answer new one.
- Hold & Accept – Place call on hold & take the new call.
- Reject – Sends incoming call to voicemail.

## Switching Between or Closing Apps

### • iPhone

- Return to Recent Apps: Swipe up & pause halfway  → Tap an app to switch.
- Close Apps: Swipe up in App Switcher to exit apps. 

### • Android

- Return to Recent Apps: Tap Recent Apps button (bottom-left).
- Close All Apps: Open Recent Apps view → Tap Close All. 

## Closing Browser Tabs

### • iPhone (Safari)

- Tap Tabs icon (bottom-right) → Swipe left on tabs or tap  to close individually.
- Close All Tabs: Long press the Tabs icon → Select Close All Tabs.

### • Android (Chrome)

- Tap Tabs button (square with a number inside).
- Tap three-dot menu → Select Close All Tabs & confirm.
